

Team Wanderlust wants to go on a graduation trip. Michael is the initial planner. However, they don't yet know where and when to go, or whether everyone can actually go.

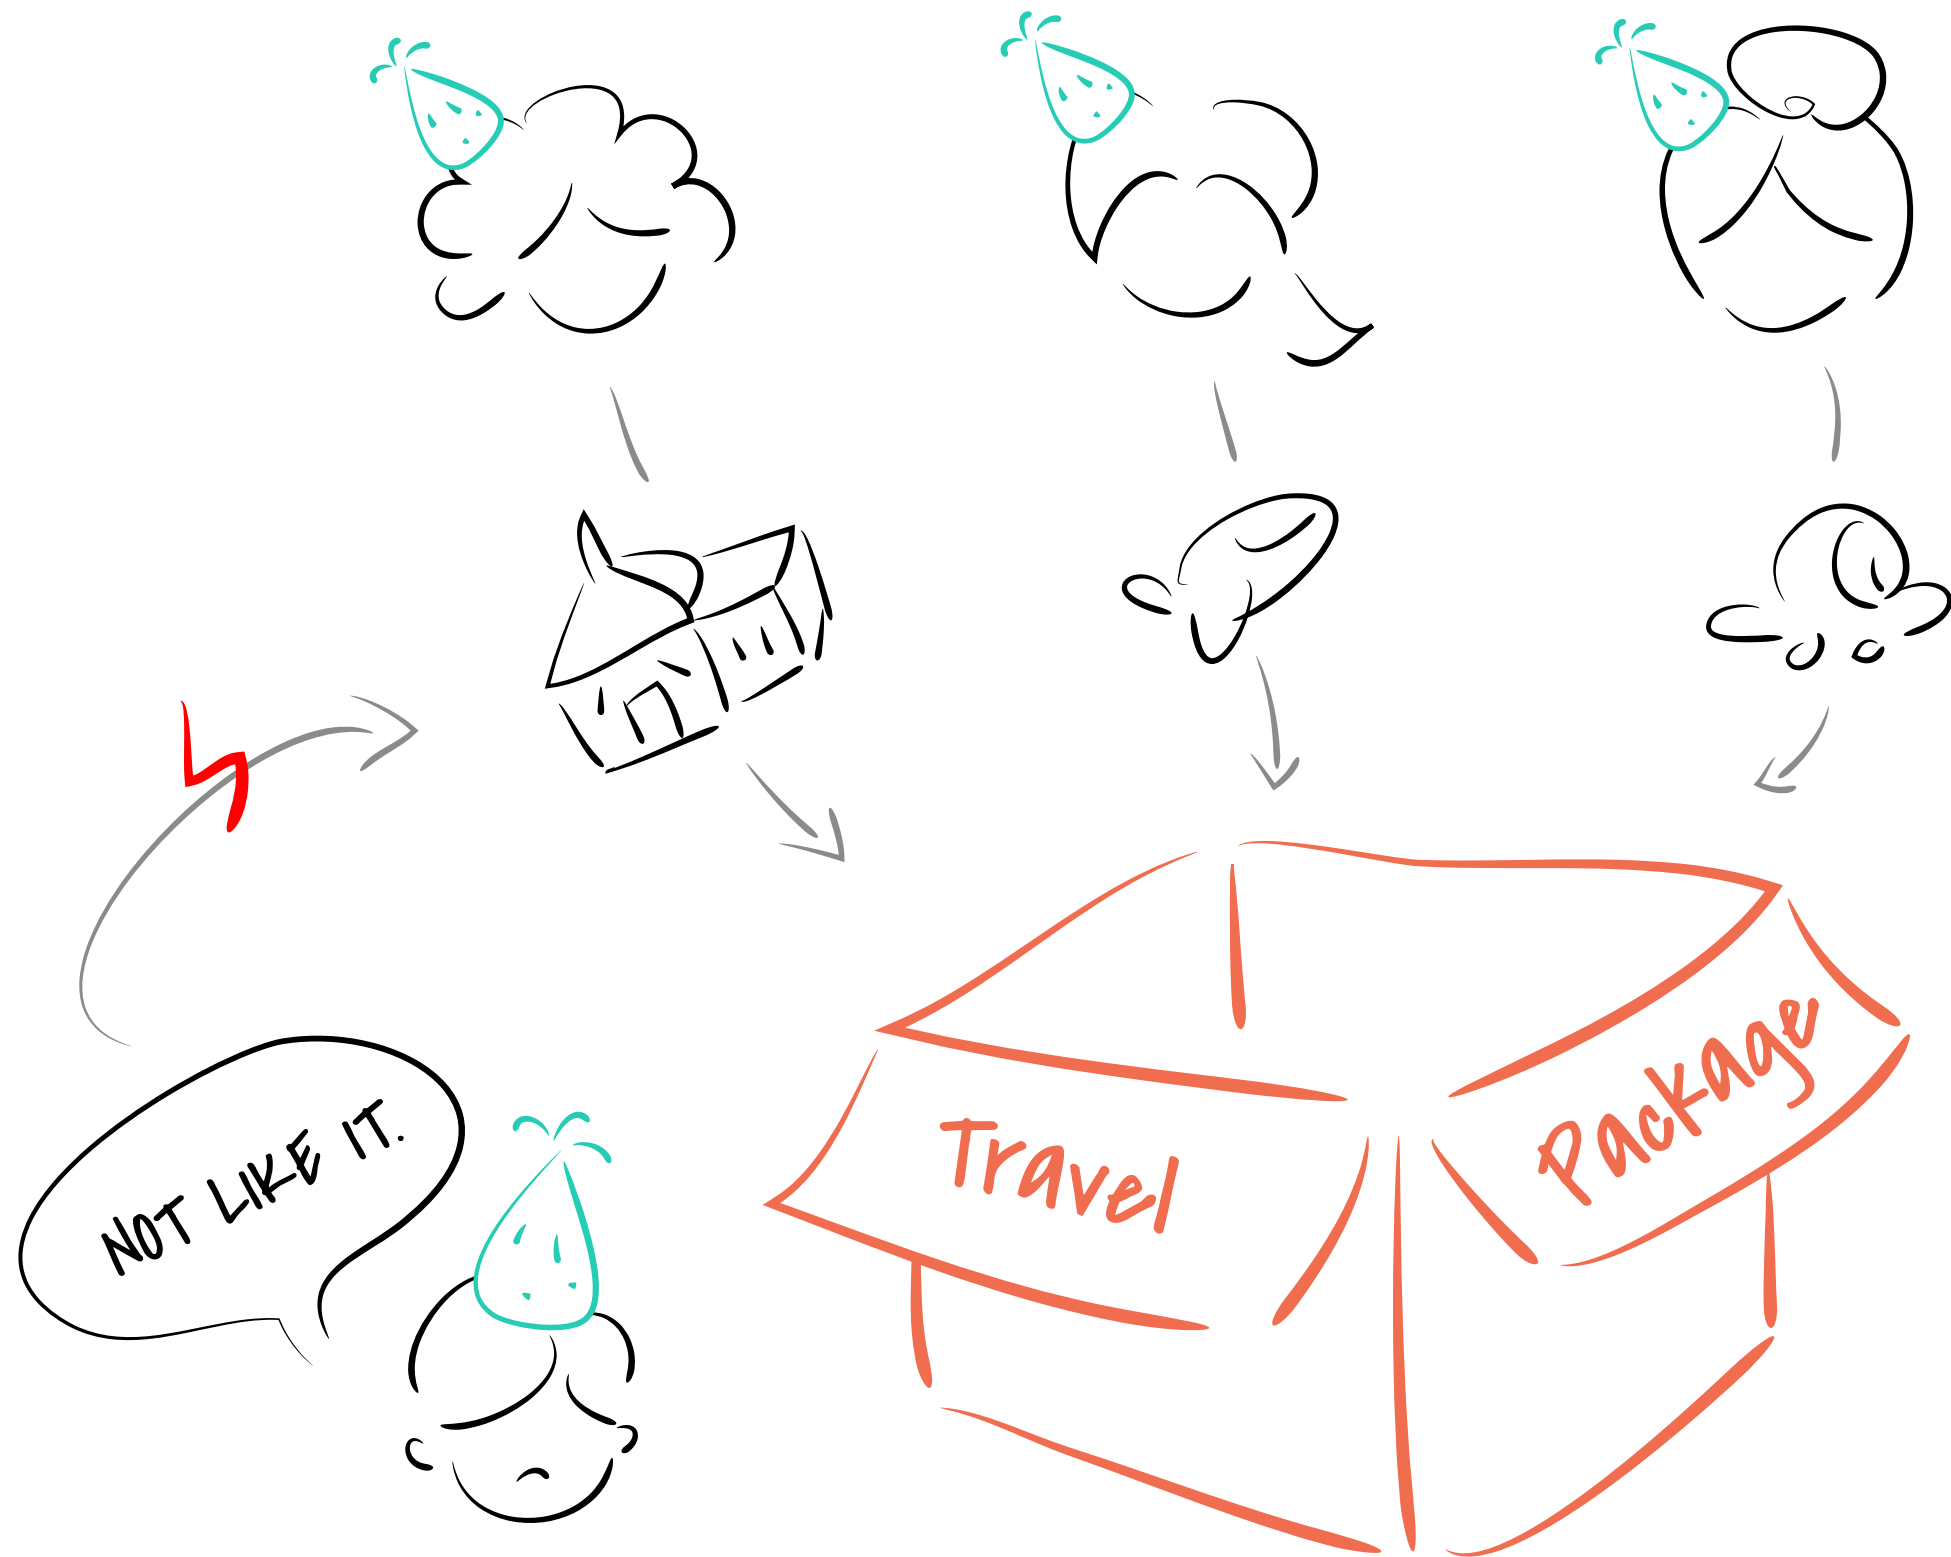

2

Michael sends the rest of the team a Date Poll for everyone to add in their availability. It turns out Kelsey can't go. Michael then sets Nishita, Ying and Debra as co-planners and Kelsey as a follower, who can only view and comment on the content. Michael gets a Group Planner Badge. The team has made progress!

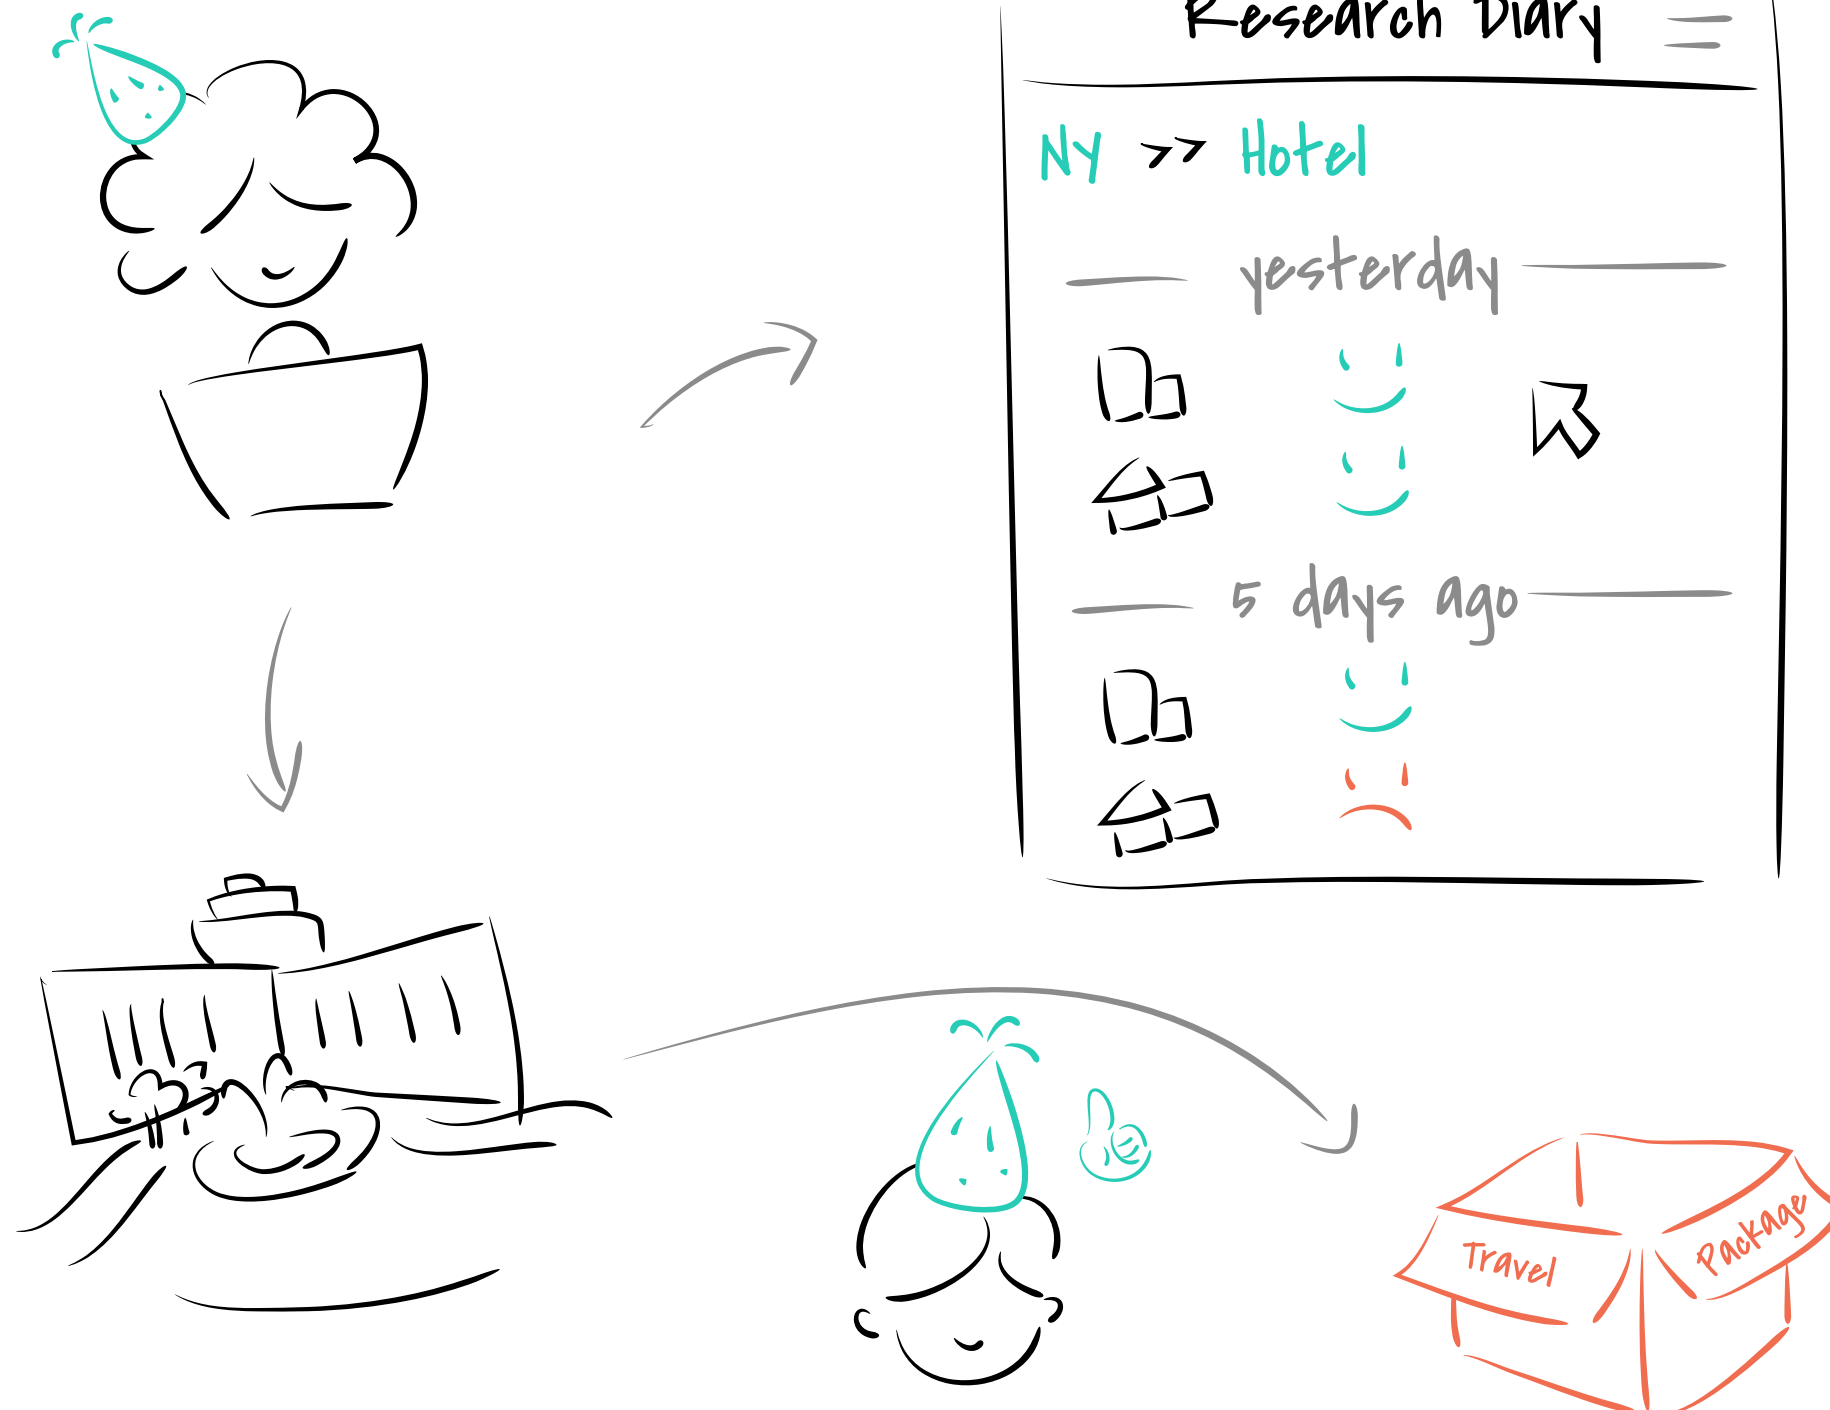

3

Everyone is involved in creating a list of potential places to go, and they are able to comment or vote on each of the places. After they make a decision, the progress bar moves to 20 percent. The whole team gets a Fast Decision Badge!

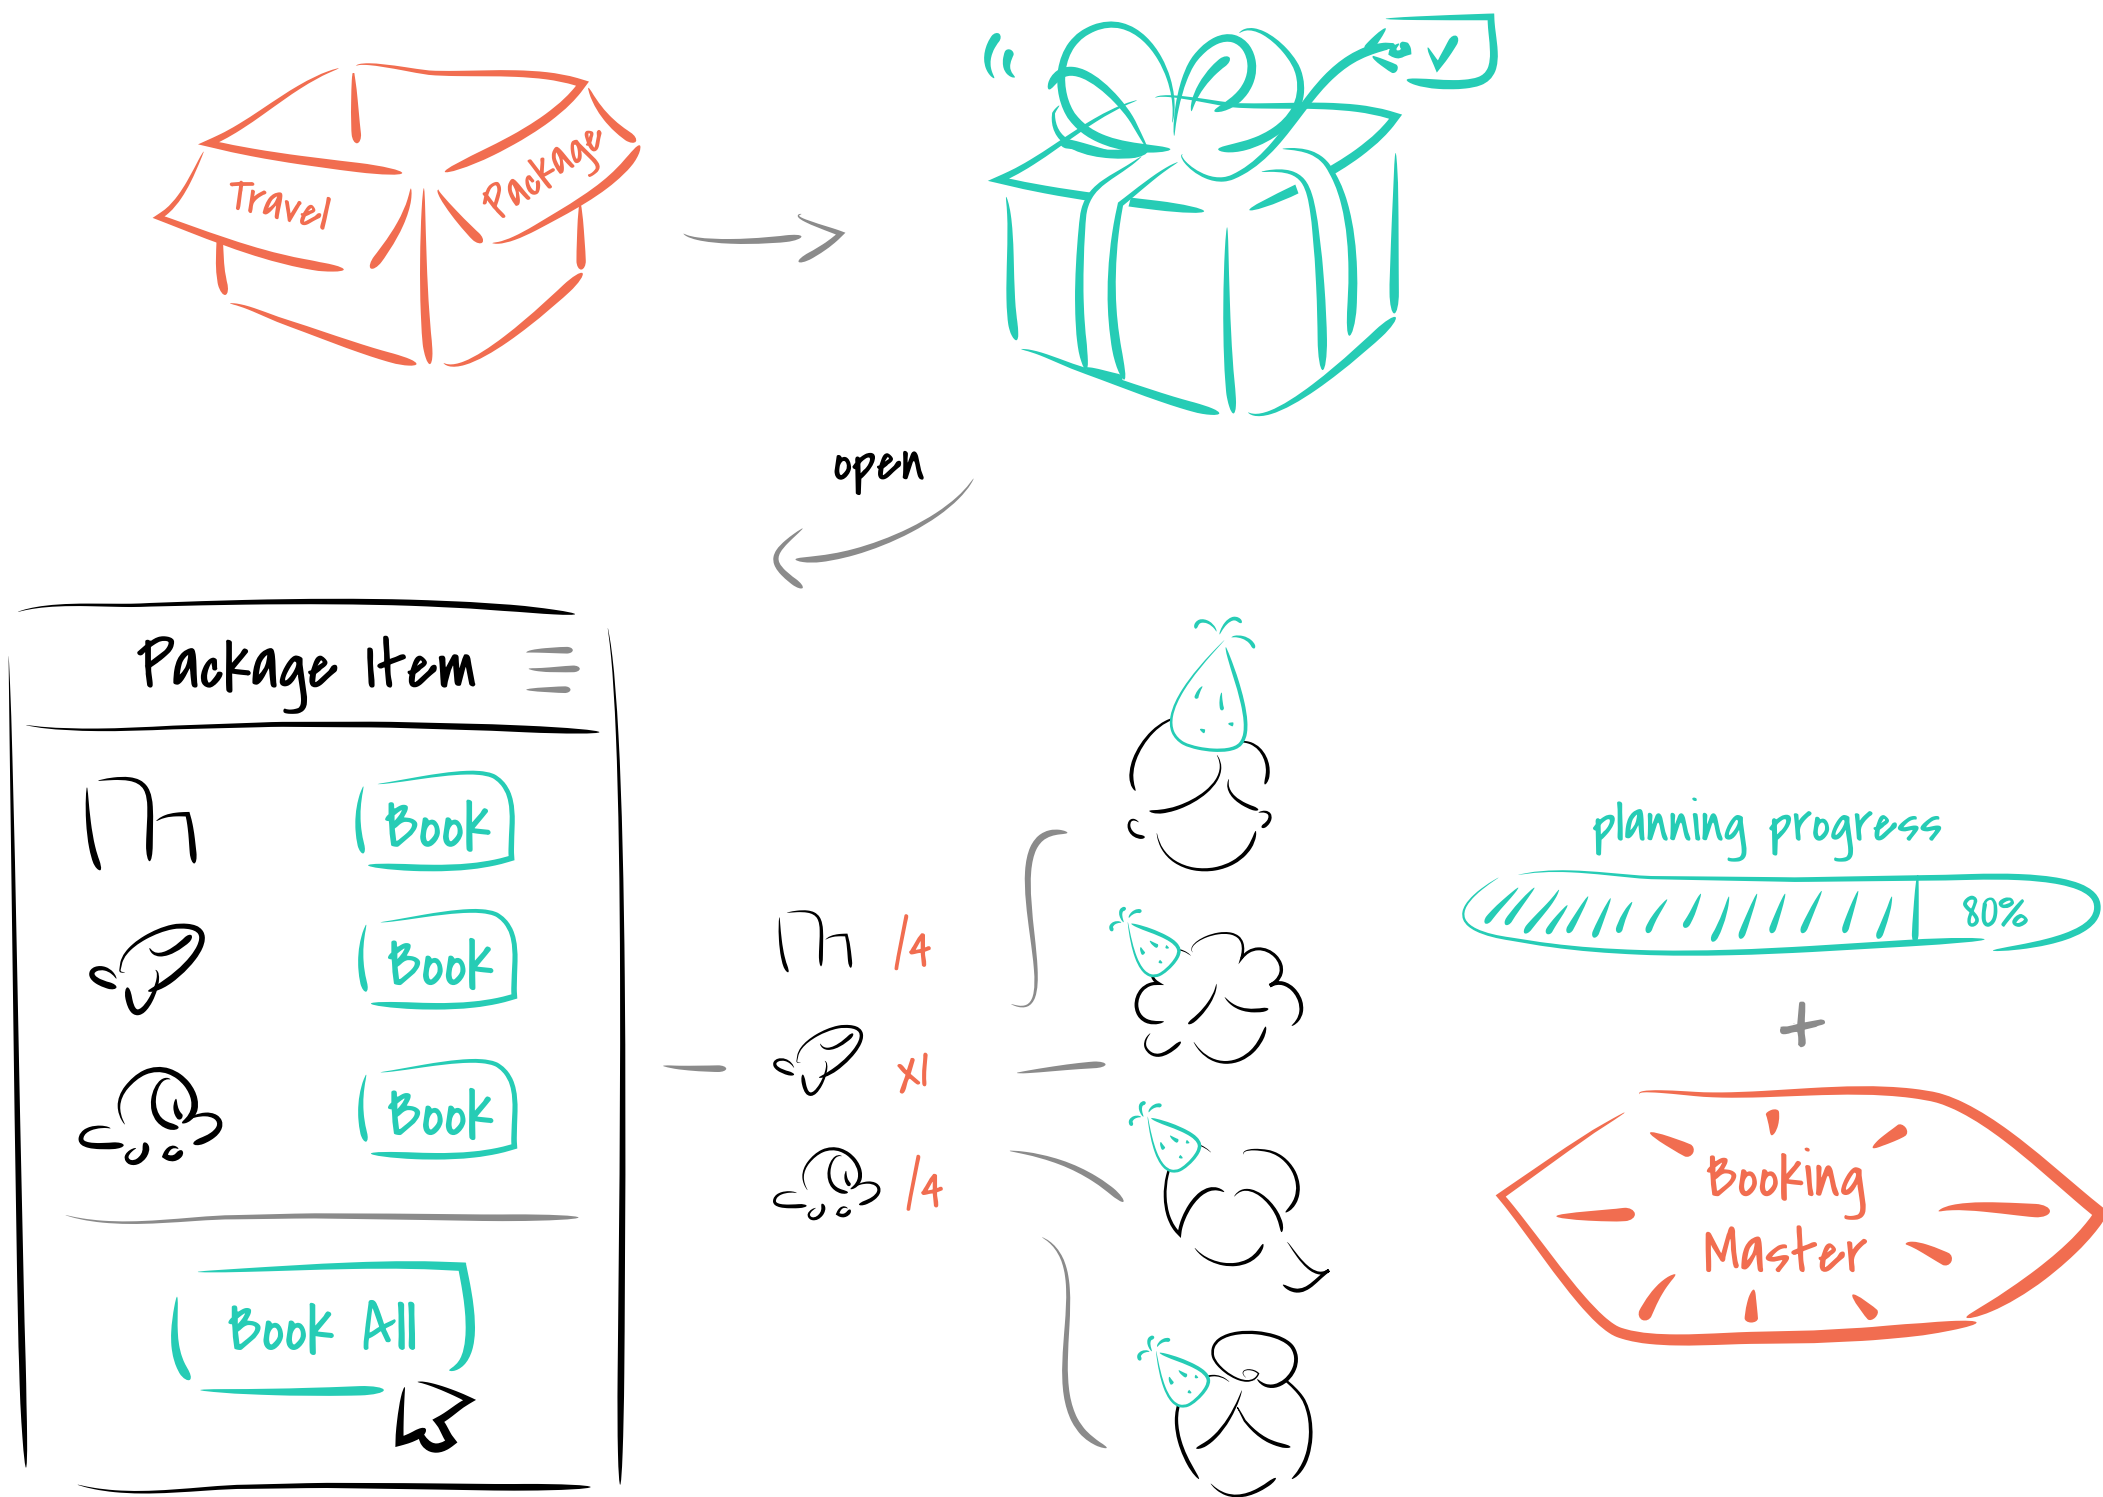

4

Now everyone takes a different aspect to research and adds them to a shared Travel Package. However, Michael dislikes the hotel Nishita has put in.

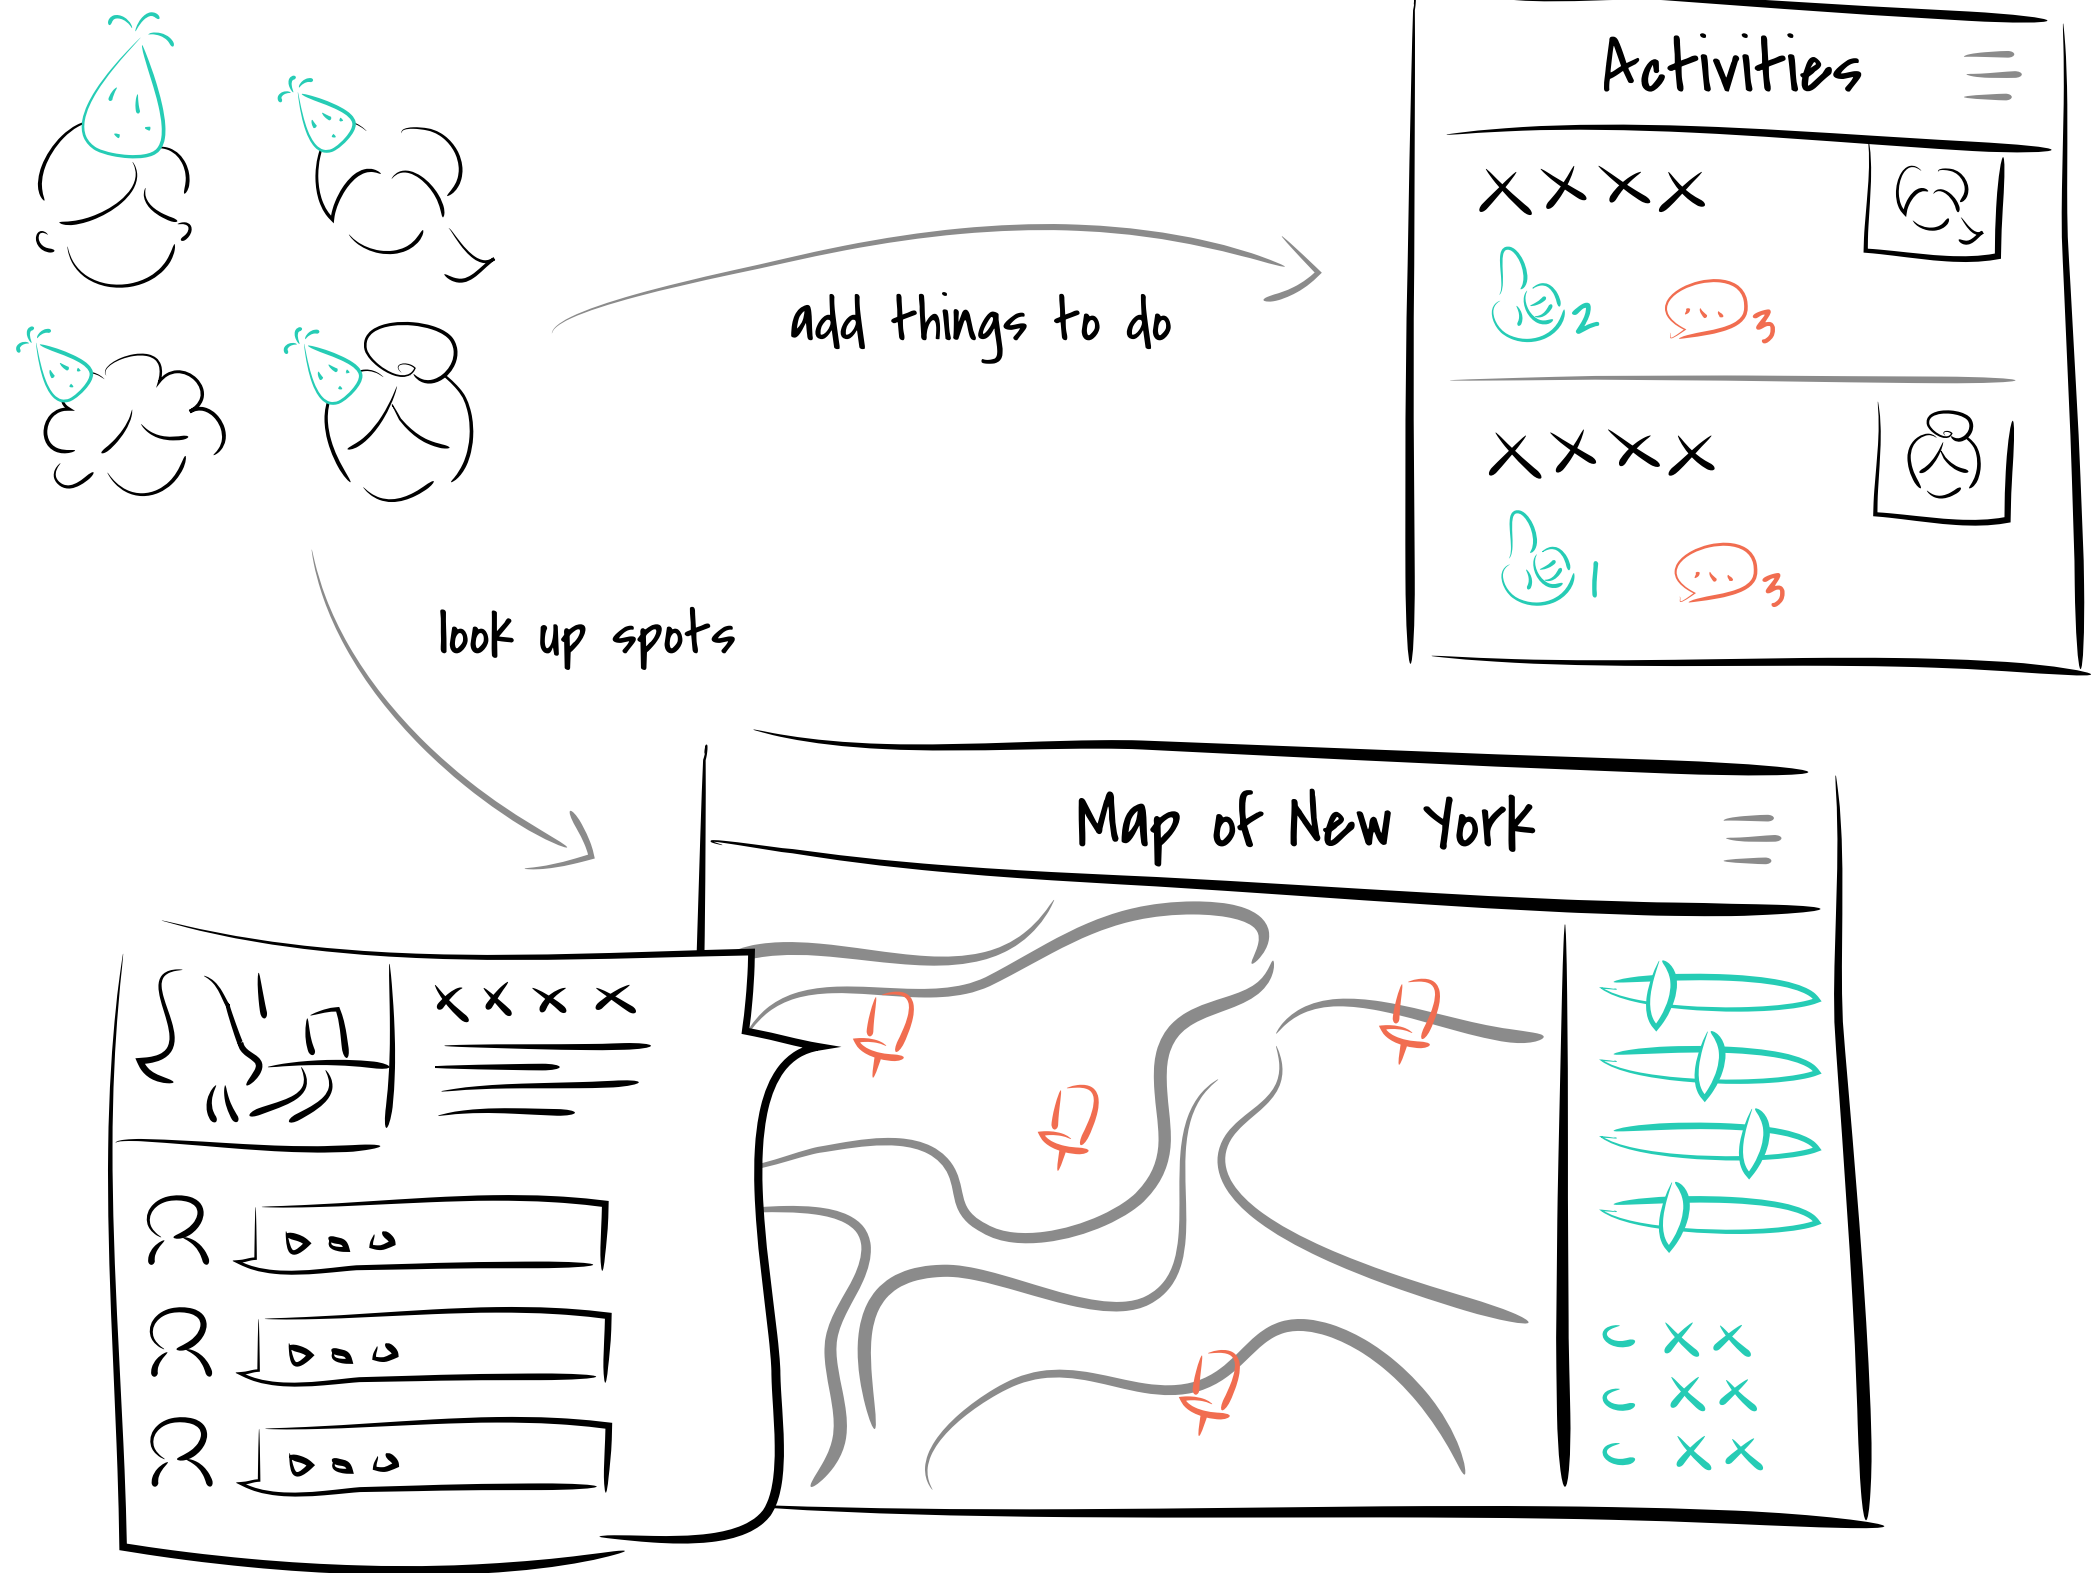

5

Nishita goes back to her research history and sees other hotels that she has looked at recently. She sees that she liked The Roosevelt Hotel. She puts this in the travel package. Michael likes this hotel better, so they keep it in the package.

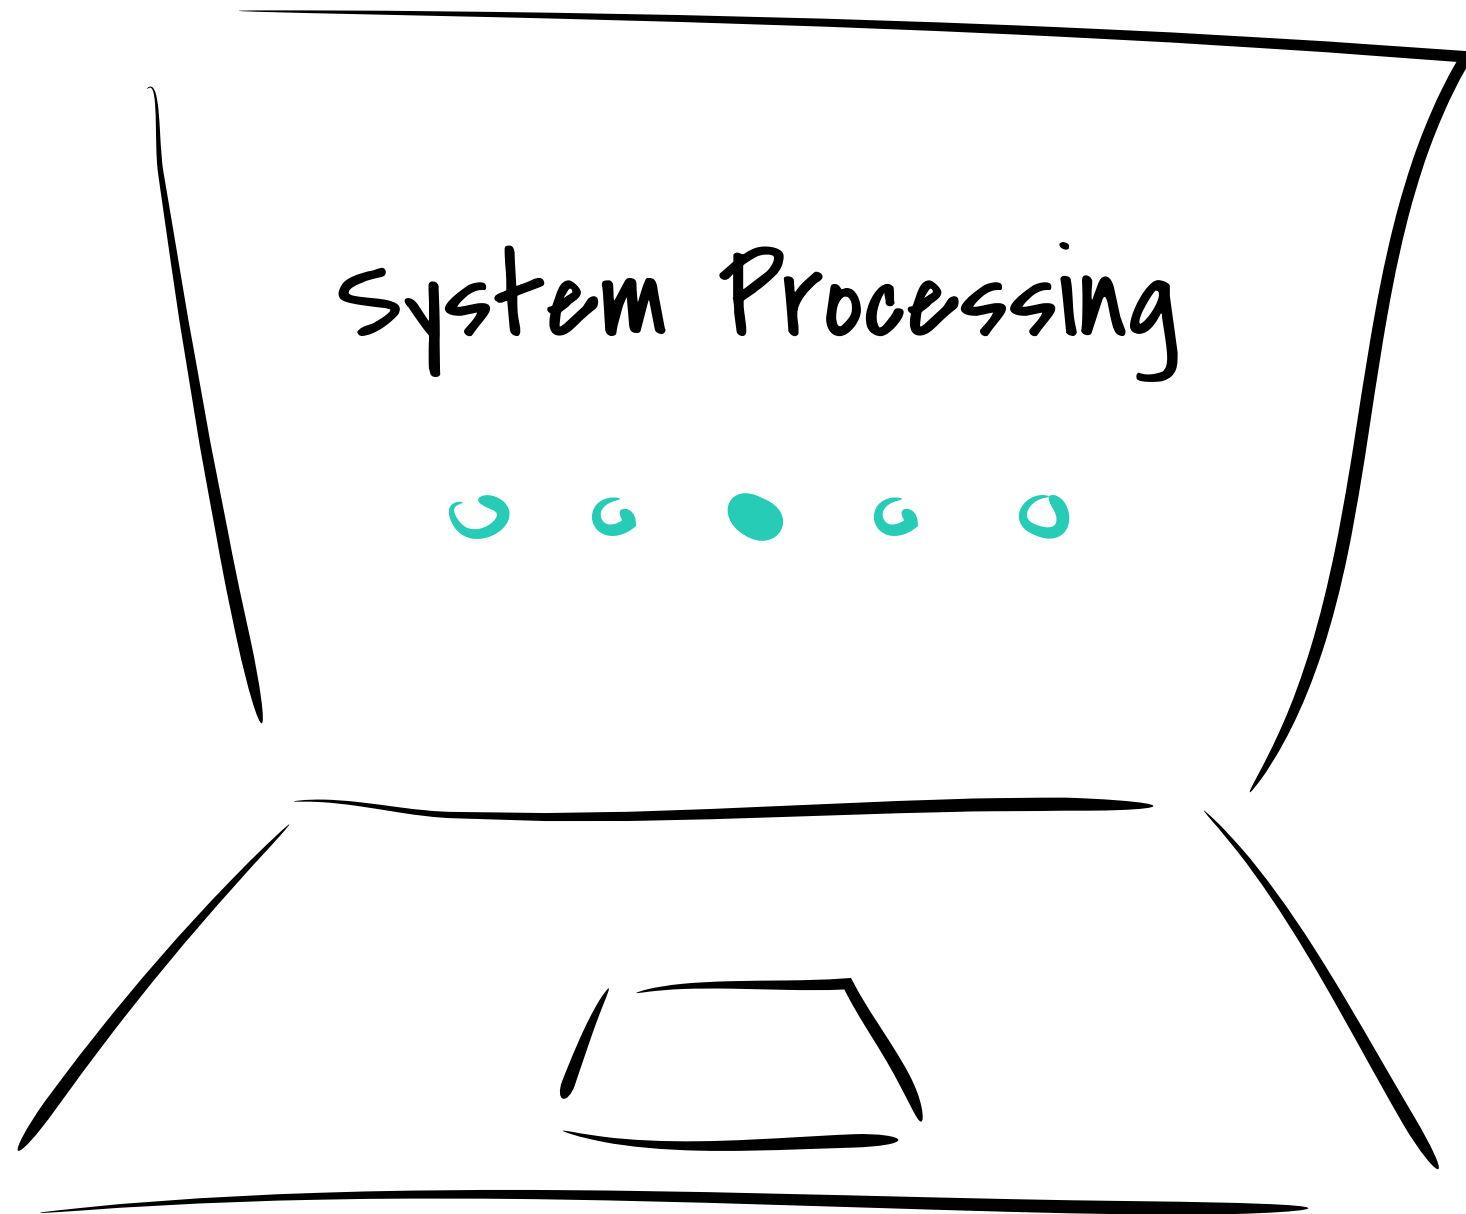

6

Everyone has agreed that they like what is in the package. Since they have made a lot of progress on their trip, everyone gets a badge. Everyone opens the package and books the parts that they need at once. The team gets a Booking Master Badge!

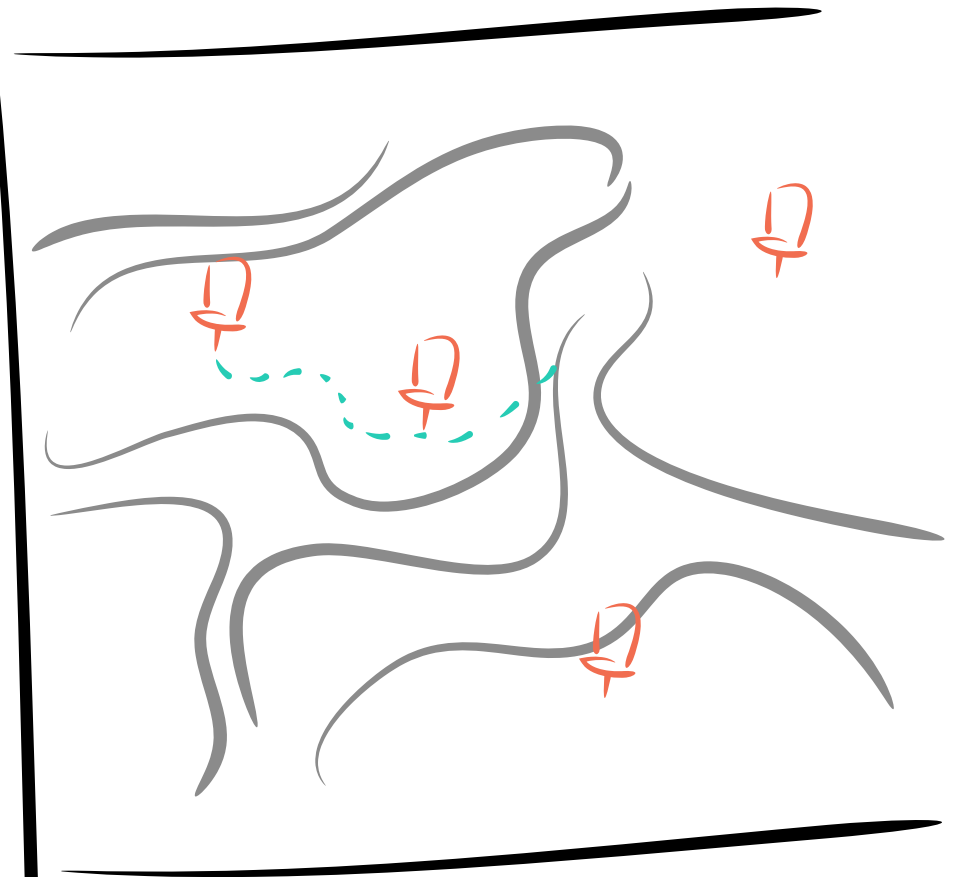

1

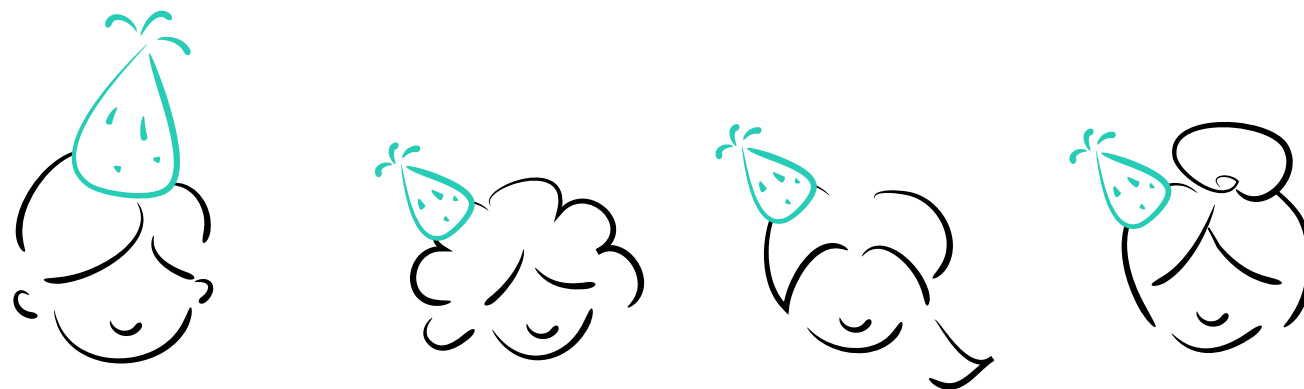

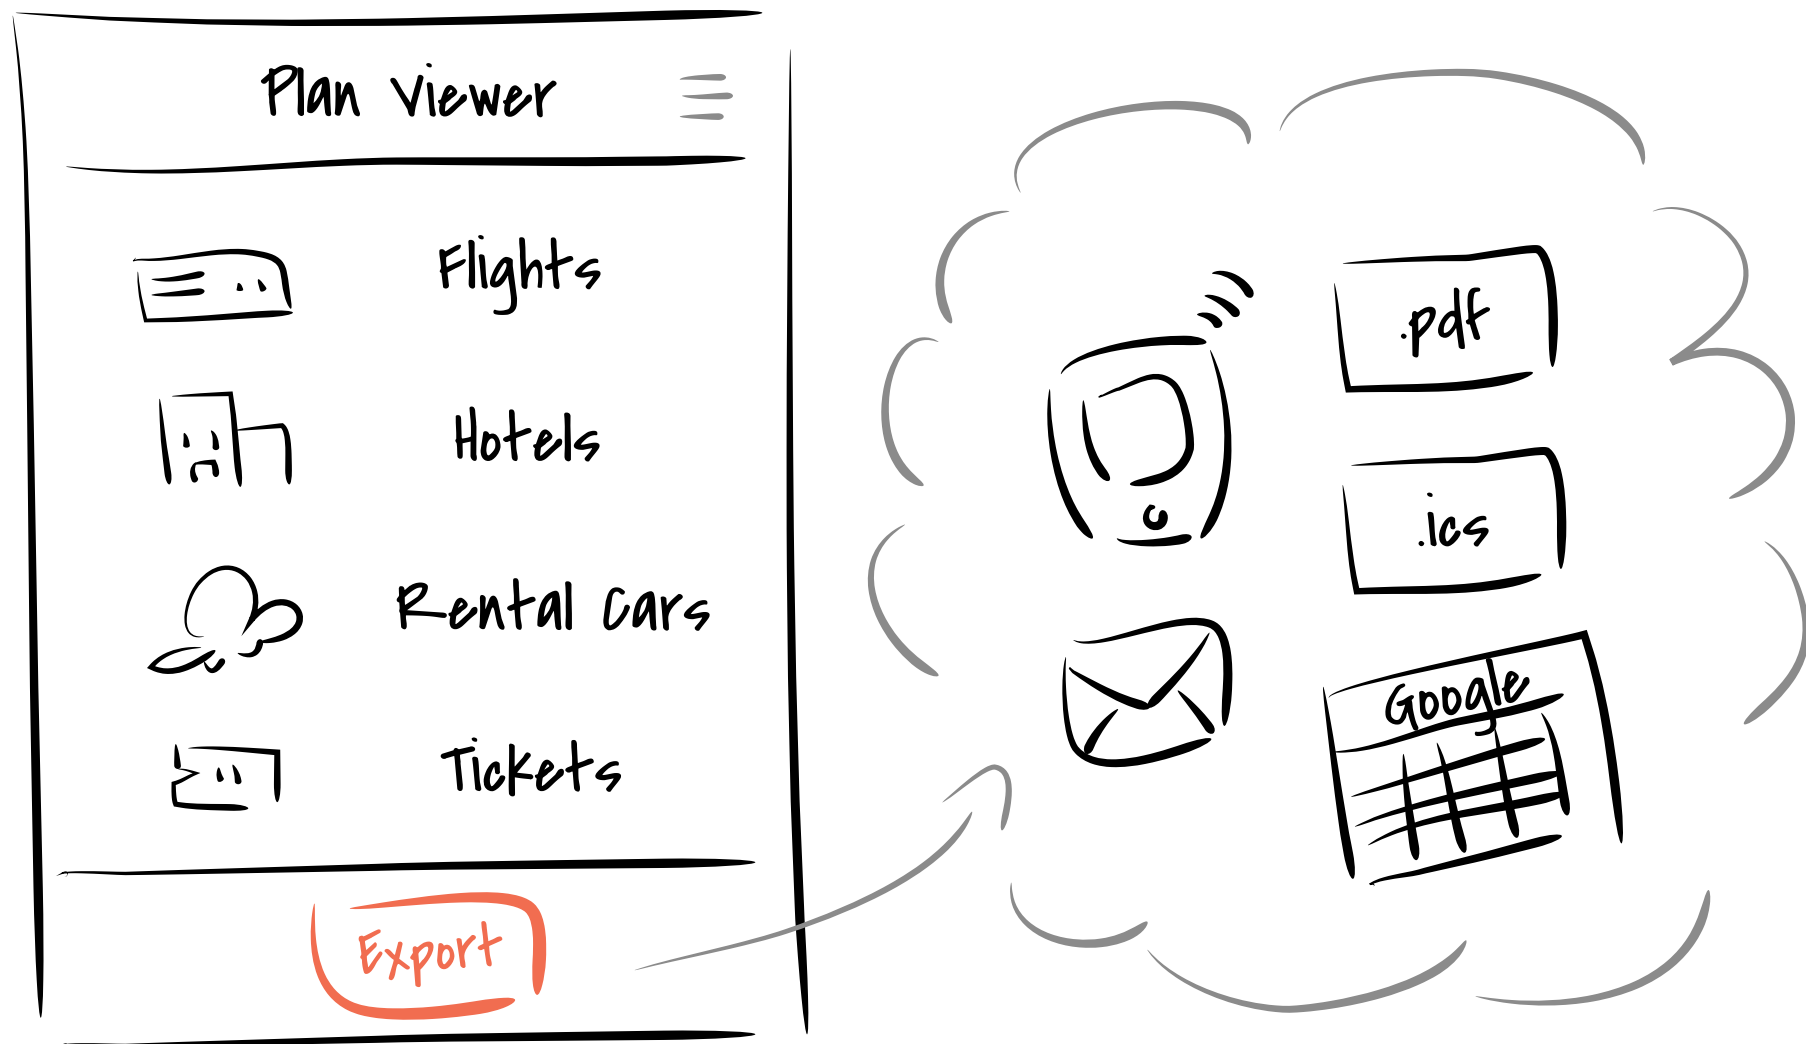

Everyone sees a map of things to do near the hotel they booked. Ying and Debra each add an activity to the itinerary that they would like to do. Their friends approve and add comments.
